MONTHLY REPORT

25X1

PAR 213

3 May 65

SUBJECT: Color Reproduction Systems Review

TASK/PROBLEM

1. In view of the recent importance attached to color photography by the intelligence community, investigate and determine the most suitable means to reproduce and utilize multiple copies of color materials. Determine the most suitable reproduction system and types of equipment to be used in all phases of the reproduction cycle. Also, attempt to define how color photography can best be utilized by the photo interpreter.

DISCUSSION

2. A draft of the final report was submitted for consideration by supervisory project engineers. A discussion of this draft resulted in the decision to rewrite and enlarge upon the section covering photographic materials. This effort was given priority over the related project, PAR 212, also in final report stage.

PLANNED ACTIVITIES

3. Rewrite and resubmit the project engineer's draft of the final report.

Declass Review by NGA.

GROUP 1
Excluded from automatic downgrading and declassification
